

**SF-182 Byrne & Associates**  
**Principal Leadership Practices for Streamlining the 3-Tier Model**

**Synopsis:**

This professional development includes one day of training on school leadership to manage effective implementation of the 3-tier model of instruction and the interdependent structures required in a system to sustain it.

**Target Audience:** Principals

**Goals:**

1. Examine interdependent organizational processes and leadership best practices that enhance efficiency of the 3-tier model.
2. Examine leadership decisions that increase adult collaboration and learning.
3. Identify processes that streamline the 3-tier model for learning.

**Outcomes:**

Identify specific professional learning community practices (leadership teams, lesson co-planning, and data analysis) that have the quickest impact on student learning and on adult participation in the 3-tier model.

Clarify processes and practices for accurately identifying student intervention needs.

Analyze structures for making best use of early release professional development time.

Connect best practices to the larger picture of systems processes.

**Costs: \$2900. Including travel.**
